

XOXO: AN EXHIBIT ABOUT LOVE + FORGIVENESS

THE POP-UP KIT

Created in 2014 as a traveling exhibit, XOXO: An Exhibit About Love and Forgiveness explores how we learn about love and forgiveness through activities that get us to feel and talk about these emotions. Our goal was to create a space for people to explore their feelings through activities that encourage meaningful conversations about love and forgiveness.

In order to make the content available to more venues, including schools and libraries, we developed a POP-UP version in 2019. The kit includes a curated collection of activities that are tools for communicating feelings in ways that are engaging, accessible and enjoyable.

Perfect for tabling events, outreach programs, field trips and similar occasions, the kit is designed for maximum flexibility and use with a wide range of audiences. A complete set of facilitation guides and resource materials is included. The activities can be facilitated by one person or set up as an unfacilitated experience without any specialized training.

POP-UP KIT CONTENTS
